

Dear Parents,

Wow, I cannot believe that it is the last full month of school already. We will have a lot of things going on from now until our last day of school, June 3rd. So hold on & enjoy the ride. It goes by even faster now.

We will continue our bug, frog and plant unit one more week so we can finish a few projects & watch our caterpillars & ants some more. (Ask your child what they look like and what they have been up to.) We couldn't find any tadpoles yet. (We think it's been too cold.) We'll try later again in May for Camp week. We've had a great time learning about different bugs & what they eat & do for us. The children have been catching bugs in our bug catchers. We even found a paper wasps nest. (Miss Cindy made sure there was no one living in there 1st before she put it in the jar.)

We are still working on testing. If you'd like to help with that it would be great. I'm hoping to be done by the end of the 1st week of May so that we have more time in our groups. Your children have been working hard on their Number packets. They will go home the first week of May.

We enjoyed hearing the Easter story & loved to play the guessing game with the resurrection eggs. Beautiful job on the concert. I was so proud of all of them for doing their best ☺

This month we will learn about Sea Life with our last full week of school (May 23-26) being camp week. (More info to come later.) Our Bible story is: Jonah & the Whale. Our character development is: Wisdom. We will continue our alphabet review, letter blending, reading 3 letter words as a class and small reading groups. Our last book order for the year will be coming home soon.

Important dates to remember:
(If it has a * next to it there will be more info later.)

- Thurs. May 12th - Last book order due.
- Tues. May 17th - Mukilteo Beach Trip
